

### Quick Details

Type: Digital Printer, Industrial grade SLA light curing

Condition: New

Place of Origin: Zhejiang, China (Mainland)

Brand Name: LARY

Model Number: JS450

Usage: shoes printer and others printer

Automatic Grade: Automatic

Color & Page: Other

Voltage: 220V

Gross Power: 2500W

Dimensions(LxWxH): 450x450x350mm

Weight: 850KG

Certification: CE Certification

After-sales Service Provided: Engineers available to service machinery overseas

Laser power: 500mW

Printing Material: Photosensitive Resin

Application: small home appliances, mold, plastic, industry etc.,

Laser system: ND: YV04 Solid Laser

Scanning system: Scanlab Vibrating mirror scanner

Recoating system: Intelligent positioning vacuum absorbing coating

Structure layer thickness: 0.05mm~0.20mm

Structure Dimentions: 450mm x 450mm x 350mm

Equipment Dimentions: 78cm(W) x 95cm(D) x 195cm(H)

### Product Description

New technology high precision laser 3D mental printer

laser 3D mental printer

flexible material 3D printing

Additive Manufacturing or Rapid Prototyping

### JS450 laser 3D printer

Type	Industrial grade SLA light curing
laser system	ND:YV04 Solid Laser
Scanning system	Scanlab Vibrating mirror scanner
Recoating system	Intelligent positioning vacuum absorbing coating
Structure layer thickness	0.05mm~0.20mm
Structure Dimentions	450mm x 450mm x 350mm
Equipment Dimentions	78cm(W) x 95cm(D) x 195cm(H)
